

The following is a short blurb to be used on your site or in your program. It is primarily for Bob's keynote.

Please contact us for a condensed version for kick-offs, wrap-ups, emcee, etc.

Feel free to edit to fit your space requirements.

Entrepreneur/Speaker/Author/Mentalist – Bob Garner

Bob Garner is a guy who took a dream and turned it into reality. A successful entrepreneur for 30 years, Bob understands the obstacles people face when trying to achieve goals and realize their dreams. With no money or college degree and after set-backs that would have made most people give up, Bob realized his dream, created two successful companies, and achieved financial security before the age of 40.

Today, Bob travels the world on behalf of Fortune 1000 corporations and leading organizations sharing important insights on how to not only think like an entrepreneur, but also astonish yourself by diminishing mental obstacles and unleashing your skill set and hidden talents. His unique presentations deliver usable information, creatively reinforced with amazing and fun entertainment.

Bob has been featured in the "Wall Street Journal" and other major print, radio and television media. He is also an author who, in addition to his own books, has collaborated with best-selling authors and business leaders Stephen Covey and Ken Blanchard on secrets to personal success.

Bob is living proof that what he says... works!
